

  
HOTEL ZÜRICH AIRPORT

*Our Heritage*

our contribution

## Sustainability

### our task

**The future begins today** – this is our slogan at the Mövenpick Hotel Zurich Airport. Mövenpick Hotels & Resorts has set itself the ambitious goal of promoting sustainability, supported by the Green Globe certificate.

To achieve this goal and to save the world for our children and grandchildren, we depend on the support of our employees, our suppliers and, of course, you, our guests.

Please remember, if 7 billion people start with trivialities, it will soon turn into something very big.

## Fairtrade

### our responsibility

To not only to live the environmental thought, but to also integrate it into our actions, as well as into our processes and, above all, raise awareness of all for the environment – this is our responsibility.

#### **An excerpt of our contributions to sustainability:**

- Use of energy-saving lamps and energy-saving devices
- Water regulation
- Use of the Eco product line in the guest bathrooms
- Recycling and waste separation
- Our own herb gardens
- Purchase of fair trade products and MSC-certified fish
- Promotion and use of regional products to support the local economy and to minimise transport emissions
- We are part of Green Team, which promotes the cause and effectively integrates it by way of initiatives

## Numbers and facts

The Mövenpick Hotel Zurich Airport currently employs about 210 people from 29 nations in full-time and part-time jobs. In one year more than 130,000 guests stayed in our hotel and more than 340,000 guests visited our restaurants.

### Electricity

Our electricity consumption is approximately 1,267,850 kWh per year. This corresponds to an annual electricity consumption of approx. 338 four-person households.

### Water

Our water consumption is approximately 19,095 m<sup>3</sup> per year. This corresponds to an average consumption of 388 litres per guest.

### Heating

The annual consumption for heating is approximately 934,679 kWh per year. This corresponds to an annual electricity consumption of about 48 four-person households.

### Waste

146.34 tonnes of operational waste, 21.44 tonnes of waste glass and 294 tonnes of cardboard.

## Our goals your opinion

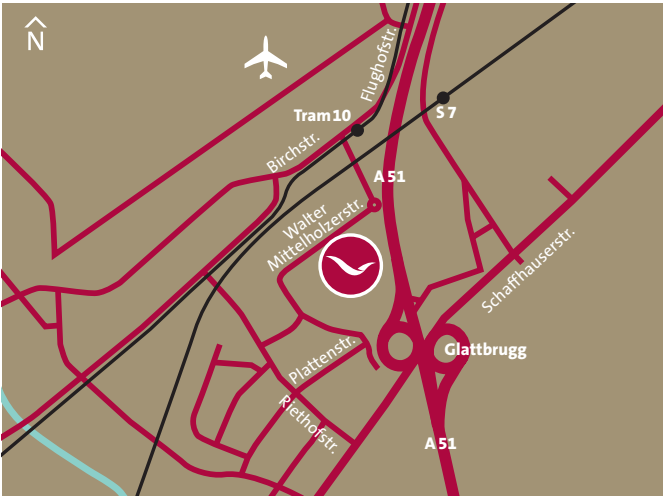

Our goal is to reduce our CO<sub>2</sub> emissions and water consumption by 10% until 2013\* and to reduce our operational waste by 20% by 2013\*. We have already achieved very much by modernising, renovating and converting. But there is still a lot to do for all of us.

\* compared to the year 2010

We have installed a Green Globe app for you on our I-Peak screen in the hotel lobby. There you can find out with which simple measures you can support us to reach our goal.

All our European hotels are  
Green Globe-certified:
