

Passionately Swiss.™

www.moevenpick-hotels.com

The environment  our contribution.

The environment our tasks.

Do the right thing today for tomorrow. This is our motto and we commit ourselves to it. We, the Mövenpick Hotel München-Airport, are taking responsibility. Our employees are sensitized to active environmental protection in their thoughts and deeds. Not only tomorrow, but now – because the future begins today.

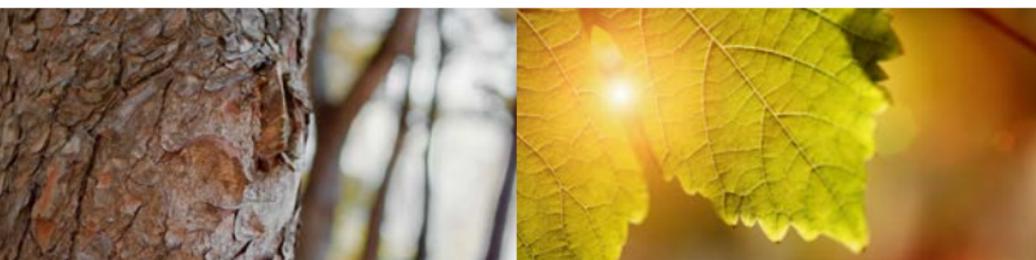

Within the scope of any single task force, every individual has the possibility to contribute a little and to exert themselves in order to protect our environment. We introduce new measures and optimise the current ones. To do this, we analyse consumption figures, look for saving possibilities and new, eco-friendly ideas.

As Green Globe certified hotel, it is part of our standards to handle our resources with care, use efficient energy concepts, provide you with sustainable stationary, for example biodegradable pens, and reduce the production of waste throughout your event. We offer you dishes prepared with seasonal and regional products as well as Mövenpick Fair Trade coffee during your coffee breaks and meals.

Central aspects are also the support of the local community and social responsibility with a special focus on education. We group our sustainability activities under one banner: SHINE.

Numbers Facts.

The Mövenpick Hotel München-Airport currently employs 73 full time and part-time employees, as well as casual workers. Every year, about 53,000 people spend the night in our hotel and approximately 93,000 guests visit our hotel restaurant. With the help of these figures it's plain to see that high energy use cannot be inevitable.

Electricity

Our annual electricity use amounts to 843,398 kWh. This is equivalent to 241 two-person households per year.

Water

We use 10,142 m³ of water every year. This is equivalent to approximately 72,442 full standard bathtubs.

Heating

We use 803,657 kWh for heating the hotel every year. Enough to heat 47 households for a whole year.

Laundry

We launder 162,683 kg of washing per year. This amount is equivalent to approximately 23,240 full standard household washing machines.

Rubbish

137 m³ of residual waste, 130 m³ of waste paper, and 215 m³ of organic rubbish.

Do something think of the future.

It is our aim to keep environmental protection in mind and to act in a way that reflects this way of thinking. The measures that we have implemented serve to minimise the use of valuable resources.

- Using energy-saving light bulbs wherever possible.
- Water regulation.
- Recycling and differentiated waste processing.
- Use of environmentally-friendly detergents and cleaning agents.
- Use of the ECO product range in the guest bathrooms.
- Electronic equipment is purchased according to energy-saving criteria.
- Activation of Green Teams in the areas of: environment, social and employees/staff.
- Support and use of regional products in order to support the local economy and reduce transport emissions.
- Use of Fair Trade and organic produce wherever possible.
- Active support of local and social organisations and institutions with donations and sponsoring (kindergarten, local parishes, missionaries).
- Support of the "Tafel in Hallbergmoos".

Your support 🇨🇭 we thank you.

We would appreciate if you decide to make a small contribution to our environmental project during your stay. Because in the end it's about our common future.

You can support us in becoming aware of our campaigns, by providing us with suggestions or by taking an active part in our project. Thank you for your assistance.

Curious?

You will find further information on our web-page under the heading Sustainability.

For the sake of our environment,
Your Mövenpick Hotel München-Airport Team

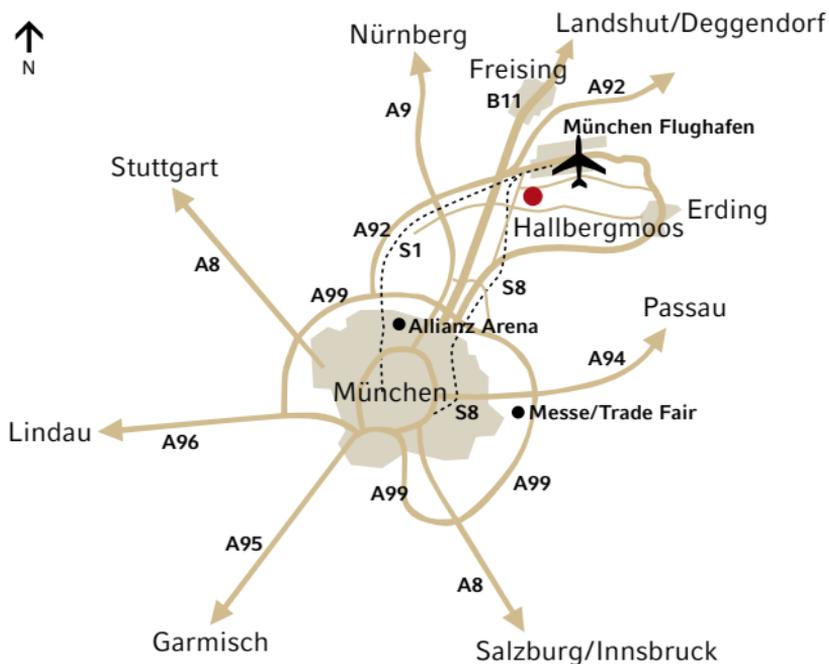

For your business trips, take advantage of our partnership with the German Rail organisation "Deutsche Bahn" or choose as well to compensate your trip with Atmosfair and help us become environmental friendlier.
