

Environmental Policy Statement

Mövenpick Resort & Residences Aqaba is committed to ensure that its operations take into account possible impacts on the environment.

It will work towards:

- Making sure all relevant environmental legislations and regulations are applied.
- Operating the business in an environmentally sensitive manner.
- Purchasing environment-friendly materials when appropriate.
- Raising staff awareness so that everyone can be involved.
- Minimizing energy and water usage in the buildings, vehicles and processes in order to conserve supplies and reduce consumption of natural resources, especially where they are non-renewable.
- Minimizing waste and re-using or recycling as much of it as possible.
- Applying the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reducing any impacts from our operations on the environment and local community.

Adhering to the above principles, Mövenpick Resort & Residences Aqaba will aim for continuous improvement, we are committed in setting up objectives with defined targets that are reviewed constantly to improve our environmental and social performance while becoming environmentally competitive and a benchmark in the tourism sector.
