

Environmental Policy

In our role as a leading worldwide hotel chain, we are committed to apply environmental sustainability activities that ensure reduction of undesirable environmental impact, with careful use of our limited resources. Within its Environmental Policy and commitment to the environment, Mövenpick Qassim will continuously focus on the following measures:

- 1- Complying with the requirements of environmental legislations.
- 2- Wise consumption of water, energy & other resources with efficient use & constant evaluation.
- 3- Raising sustainability awareness for our employees & clients.
- 4- Modification of our purchasing policy to be in line with sustainability.
- 5- Priority to use chemical products that are not aggressive to the environment.
- 6- Participate in local community associations, charities & providing support to businesses by a variety of methods.
- 7- Implementing & applying waste management & recycling program within the resort.
- 8- Continuous improvement of our environmental, social performance.

Our aim is to create better environment ions through implementing efficient & positive sustainability management program that benefit customers, staff & our owners. We aspire to be role model in the hotel industry for environmental policy & actions.
