

Environmental Policy

We, the Management and the Associates of Movenpick Hotel & Apartments Bur Dubai are committed to enacting environmental sustainability activities to ensure reduction of undesirable environmental impact, with careful use of our limited resources.

Therefore, we subscribe to the following sustainability measures:

1. Complying with the requirements of environmental legislations.
2. Wise consumption of water, energy & other resources with efficient use and constant evaluation.
3. Raising sustainability awareness for our employees and clients.
4. Ensuring that all business activities will not adversely impact cultural and natural heritage sites.
5. Priority to use chemical products that are not aggressive to the environment.
6. Implementing and applying waste management & recycling program within the hotel.
7. Modification of our purchasing policy to be in line with sustainability guidelines.
8. Continuously improve our environmental and social performance.

Adhering to the above sustainability principles, we are committed in setting up objectives with targets that are reviewed constantly and consistently to improve our good environmental and social performance while becoming environmentally competitive in the tourism sector.

We are committed to take the necessary steps to prevent environmental degradation while ensuring that all our activities are in compliance with the relevant legal requirements and standards adopted by the Hotel Apartments.
